Accounting principles

The annual accounts have been prepared in conformity with the Accounting Act and NRS 8 - Good accounting practice for small companies.

Operating revenues

Income from the sale of goods is recognised on the date of delivery. Services are posted to income as they are delivered.

Tax

The tax charge in the profit and loss account consists of tax payable for the period and the change in deferred tax. Deferred tax is calculated at the tax rate at 22 % on the basis of tax-reducing and tax-increasing temporary differences that exist between accounting and tax values, and the tax loss carried forward at the end of the accounting year. Tax-increasing and tax-reducing temporary differences that reverse or may reverse in the same period are set off and entered net.

Classification and valuation of current assets

Current assets and short-term liabilities normally include items that fall due for payment within one year of the balance sheet date, as well as items that relate to the stock cycle. Current assets are valued at the lower of acquisition cost and fair value.

Receivables

Receivables from customers and other receivables are entered at par value after deducting a provision for expected losses. The provision for losses is made on the basis of an individual assessment of the respective receivables.

Note 1 Nature of the business and location

Norus Renewables AS is a company whose activities comprise To develop, plan, design, construct, operate, maintain, finance, and sell projects involving (i) solar power installations, (ii) various energy storage solutions, (iii) solar-powered pumping and water purification systems, (iv) solar-powered pumping and irrigation systems, and (v) other renewable energy-based projects. The company's activities may also include investments in other companies, as well as any other activities related to or supporting the aforementioned business operations. The company is located in the municipality of Oslo, Norway.

Note 2 Salary costs and benefits

Note 7 Going concern

The result for 2024⁵ shows a deficit of NOK - 1 174 736 against surplus NOK 990 647 in 2024. The company incurred a loss in 2025, and there is uncertainty related to future revenues and profitability. However, the board has evaluated the company's liquidity position, cost structure and planned operational measures. During 2025, the shareholders strengthened the company's financial position through a debt-to-equity conversion, resulting in an increase in both share capital and share premium.

This transaction improved the company's equity position and reduced its debt obligations. In addition, board has assessed the company's liquidity position, cost structure, and expected future activity. Based on these assessments, together with planned measures to improve profitability and secure future revenues, the board expects the company to be able to meet its obligations in 2026. Accordingly, the board considers the the conditions for going concern are satisfied, and the financial statements have been prepared on tis basis.
